Context for the TSG

- All schools should make every effort to provide children and youth with safe and supportive environments that protect and enhance their physical, emotional, and mental wellbeing.

- Our ASEPs serve our most vulnerable population of students and are managing students with complex behaviors and needs.

- The intention of this TSG is to have ASEPs look internally at their own policies and practices regarding restraint and seclusion and what resources they have available to ensure fidelity within their own program.
  - identifying patterns and trends regarding restraint and seclusion to identify proactive measures
• Corporal punishment in schools must be replaced with evidence-based strategies, such as a multi-tiered system of supports and positive behavioral interventions and supports, and other research-backed educational practices that are designed to meet students’ social, emotional, and mental health needs and improve school climate and safety.

• In addition, schools must utilize de-escalation techniques, to reduce the occurrence of challenging behaviors and improve school climate and the safety of all students.
Board of Regents (BOR)
Amendments effective August 2, 2023

• Amendment of Section 19.5 of the Rules of the BOR and Sections 100.2, 200.1, 200.7, 200.15, and 200.22 of the Regulations of the Commissioner of Education Relating to the Prohibition of Corporal Punishment, Aversive Interventions, Prone Restraint and Seclusion; Permitted Use of Timeout and Physical Restraint; and Data Collection.

Goal of the TSG

• As previously stated, each EO involved in the TSG will examine their internal policies, procedures, practices, and data patterns/trends regarding the use of restraint and seclusion utilized on students in their care. At the conclusion of the TSG each EO will develop an action plan based on their own self-identified areas of need.

Discussion & Identification
Purpose of the EO’s Self-Review Team:

• EO’s Self-Review Team is a group of people intentionally supporting the full, effective, and sustained use of innovations to ensure that intended outcomes are realized.

• The EO’s team is formed to conduct a systematic review of data, identity potential solutions, implement action steps, and monitor their program’s progress. The first stage of this work is focused on reviewing and using data to inform the development of an action plan. At the conclusion of the TSG, the EO’s team should work toward addressing self-identified areas listed on their action plan.
EO's Suggested Representation

**Team members:**

- at least one member with the authority to make key decisions (e.g., decision making for budget, implementation, policy, data systems)
- building/program level administrator(s)
- school psychologist
- behavior specialist
- quality assurance personnel
- teacher
- clinician/social worker

The team should be supported by a coordinator/team member who has access to relevant data and expertise in data-based decision making.
